

# PUPPETS

## MAKE YOUR OWN PAPER CUP PUPPET

A styrofoam or paper cup, a popsicle stick, and an illustration from the previous page are all that is needed to create a paper cup puppet.

Cut a slot at the bottom of the cup and slide the popsicle stick through. Glue the illustration to the popsicle stick.

## MAKE YOUR OWN WIGGLEY WORM PUPPET

Using the sketch here for the approximate dimensions, stitch together red or green felt to create an apple shape a little larger than the size of your fist. Make one opening for a finger-sized worm. Your index finger will poke out from this opening, disguised as a worm.
